

REACH POLICY STATEMENT

Rowham Steel Products Ltd are aware of the REACH European Union Regulation, which came into force on 1st June 2007. It relates to the Registration, Evaluation, Authorisation and Restriction of Chemicals.

The aim of REACH is to improve the protection of human health and the environment from the use of chemicals and the risks associated with products that contain chemicals. It requires Companies which manufacture and import chemicals to evaluate the risks to human health and the environment resulting from the use of those chemicals and to take the necessary steps to manage any identified risk.

Rowham Steel Products Ltd receives steel products from within the UK, and based on the information from our suppliers, our products do not contain Substances of Very High Concern (SVHC) in an amount which approaches the predefined thresholds within REACH. Under REACH regulations, we acknowledge that we have an obligation to provide information to the customer if a product contains an SVHC in a concentration greater than 0.1 % by weight.

The Company is therefore not aware of any problems in our supply chain with regard to products we utilise but will continually liaise with our suppliers to ensure that circumstances do not change or that no new products have been added to our portfolio which may require action, on behalf of our supplier. To support our commitment, this REACH Policy Statement will be reviewed on an annual basis.

Trevor Mizon
Managing Director

Revision	Date	Details of Change
1	Jan 2018	Original.
2	Jan 2020	Review completed no alterations required
3	Jan 2022	Review completed. Review of obligation limits confirmed the same
4	Jan 2024	Planned annual review
